# MASTER SERVICES AGREEMENT

## Parties

This Master Services Agreement (the "Agreement") is made between Tallowmere Freight Ltd, a company with its registered office at 14 Harbour Row, Port Ellery ("Customer"), and Quillfeather Systems BV, a company with its registered office at Lindenkade 7, Oosterwijk ("Supplier"). Customer and Supplier are each a "party" and together the "parties".

Supplier provides hosted route planning software and related services. Customer wishes to receive those services on the terms of this Agreement.

## 1. Definitions

1.1 "Affiliate" means any entity that controls, is controlled by, or is under common control with a party, where control means ownership of more than half of the voting interests.

1.2 "Business Day" means a day other than a Saturday, a Sunday or a public holiday in the place where the receiving party has its registered office.

1.3 "Customer Data" means all data that Customer or its users submit to the Services.

1.4 "Fees" means the charges set out in Schedule D, as adjusted in accordance with this Agreement.

1.5 "Services" means the hosted software and related services described in Schedule A.

1.6 "Service Credit" means a credit against future Fees calculated in accordance with Schedule B.

1.7 Headings are for convenience only and do not affect how this Agreement is read. A reference to a clause or a schedule is to a clause of, or a schedule to, this Agreement.

## 2. Term and renewal

2.1 Term. This Agreement commences on 1 March 2025 (the "Effective Date") and, unless terminated earlier in accordance with its terms, continues for an initial term of two (2) years (the "Initial Term").

2.2 Renewal. This Agreement renews automatically for successive periods of one (1) year (each a "Renewal Term") unless either party gives the other written notice of non-renewal at least ninety (90) days before the end of the then-current term.

2.3 The Initial Term and each Renewal Term together are the "Term". The Fees for a Renewal Term are the Fees in effect at the end of the preceding term, unless changed under clause 4.

## 3. Fees and payment

3.1 Supplier shall invoice the Fees monthly in advance. Each invoice must identify the Services and the period it covers.

3.2 Customer shall pay each undisputed invoice within thirty (30) days after the date of the invoice.

3.3 If Customer disputes part of an invoice in good faith, it shall tell Supplier in writing which part and why, and shall pay the undisputed part on time. The parties shall work together to resolve the dispute promptly.

3.4 All amounts are stated exclusive of value added tax and similar taxes, which Customer shall pay where they apply.

## 4. Changes to the Fees

4.1 Supplier may increase the Fees no more than once in each contract year, with effect from an anniversary of the Effective Date, by giving Customer written notice at least sixty (60) days before that anniversary.

4.2 An increase under clause 4.1 must not exceed five percent (5%) of the Fees in effect immediately before the increase.

4.3 A notice under clause 4.1 that is given late has no effect for that anniversary.

## 5. Service levels, reports and credits

5.1 Supplier shall provide the Services so that they meet or exceed the service levels in Schedule B.

5.2 Supplier shall deliver to Customer a written service level report within fifteen (15) business days after the end of each calendar quarter. Each report must state the availability achieved, each incident of priority one or two, and any Service Credit that has accrued.

5.3 If Supplier fails to meet a service level, Customer is entitled to the Service Credit set out in Schedule B. Customer must claim a Service Credit in writing within forty-five (45) days after the end of the calendar month in which the relevant failure occurred, after which the claim lapses.

5.4 Service Credits are Customer's only financial remedy for a failure to meet a service level, without affecting its right to terminate under clause 9.

## 6. Insurance and audit

6.1 Supplier shall maintain, with a reputable insurer, professional indemnity and cyber liability insurance with a limit of not less than two million euros for each claim.

6.2 Supplier shall deliver to Customer a certificate evidencing the insurance required by this clause within thirty (30) days after each anniversary of the Effective Date.

6.3 Customer may audit Supplier's compliance with this Agreement no more than once in each contract year, on at least twenty (20) Business Days' written notice, during normal working hours and without unreasonably disrupting Supplier's business.

## 7. Confidentiality

7.1 Each party shall keep the other party's confidential information secret, use it only to perform or receive the Services, and disclose it only to those of its staff and advisers who need to know it and are bound to protect it.

7.2 Clause 7.1 does not apply to information that is public other than through a breach of this Agreement, that the receiving party already held lawfully, or that the law requires a party to disclose.

## 8. Data protection

8.1 Each party shall comply with the data protection laws that apply to it. Supplier shall process personal data in the Customer Data only on Customer's documented instructions and as set out in Schedule C.

8.2 Supplier shall tell Customer without undue delay after becoming aware of a personal data breach affecting the Customer Data.

## 9. Termination

9.1 Either party may terminate this Agreement by written notice if the other party commits a material breach and, where the breach can be remedied, fails to remedy it within thirty (30) days after receiving written notice of it.

9.2 On termination or expiry, Supplier shall make the Customer Data available for export for a period of sixty (60) days, after which Supplier shall delete it.

## 10. Liability

10.1 Nothing in this Agreement limits liability that cannot be limited by law.

10.2 Subject to clause 10.1, each party's total liability under this Agreement in any contract year is limited to the Fees paid or payable in that contract year.

## 11. General

11.1 Notices. A notice under this Agreement must be in writing and sent to the address of the receiving party stated above, or to another address that party has notified. A notice sent by courier is received when it is delivered.

11.2 This Agreement is the entire agreement between the parties about its subject matter. It may be changed only in writing signed by both parties.

11.3 Neither party may assign this Agreement without the other's written consent, which must not be unreasonably withheld.

11.4 This Agreement is governed by the laws stated in Schedule D, and the courts stated there have exclusive jurisdiction.

## Schedule A: Services

A.01 Service component 01. Supplier shall provide the hosted route planning module identified as component 01, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 01, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.02 Service component 02. Supplier shall provide the hosted route planning module identified as component 02, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 02, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.03 Service component 03. Supplier shall provide the hosted route planning module identified as component 03, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 03, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.04 Service component 04. Supplier shall provide the hosted route planning module identified as component 04, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 04, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.05 Service component 05. Supplier shall provide the hosted route planning module identified as component 05, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 05, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.06 Service component 06. Supplier shall provide the hosted route planning module identified as component 06, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 06, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.07 Service component 07. Supplier shall provide the hosted route planning module identified as component 07, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and

the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 07, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.08 Service component 08. Supplier shall provide the hosted route planning module identified as component 08, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 08, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.09 Service component 09. Supplier shall provide the hosted route planning module identified as component 09, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 09, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.10 Service component 10. Supplier shall provide the hosted route planning module identified as component 10, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 10, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.11 Service component 11. Supplier shall provide the hosted route planning module identified as component 11, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 11, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.12 Service component 12. Supplier shall provide the hosted route planning module identified as component 12, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 12, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.13 Service component 13. Supplier shall provide the hosted route planning module identified as component 13, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 13, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.14 Service component 14. Supplier shall provide the hosted route planning module

identified as component 14, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 14, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.15 Service component 15. Supplier shall provide the hosted route planning module identified as component 15, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 15, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.16 Service component 16. Supplier shall provide the hosted route planning module identified as component 16, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 16, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.17 Service component 17. Supplier shall provide the hosted route planning module identified as component 17, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 17, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.18 Service component 18. Supplier shall provide the hosted route planning module identified as component 18, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 18, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.19 Service component 19. Supplier shall provide the hosted route planning module identified as component 19, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 19, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.20 Service component 20. Supplier shall provide the hosted route planning module identified as component 20, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 20, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.21 Service component 21. Supplier shall provide the hosted route planning module identified as component 21, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 21, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.22 Service component 22. Supplier shall provide the hosted route planning module identified as component 22, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 22, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.23 Service component 23. Supplier shall provide the hosted route planning module identified as component 23, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 23, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.24 Service component 24. Supplier shall provide the hosted route planning module identified as component 24, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 24, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.25 Service component 25. Supplier shall provide the hosted route planning module identified as component 25, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 25, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.26 Service component 26. Supplier shall provide the hosted route planning module identified as component 26, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 26, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.27 Service component 27. Supplier shall provide the hosted route planning module identified as component 27, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 27, and shall name an operational contact

for it within the onboarding period agreed in the project plan.

A.28 Service component 28. Supplier shall provide the hosted route planning module identified as component 28, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 28, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.29 Service component 29. Supplier shall provide the hosted route planning module identified as component 29, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 29, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.30 Service component 30. Supplier shall provide the hosted route planning module identified as component 30, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 30, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.31 Service component 31. Supplier shall provide the hosted route planning module identified as component 31, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 31, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.32 Service component 32. Supplier shall provide the hosted route planning module identified as component 32, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 32, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.33 Service component 33. Supplier shall provide the hosted route planning module identified as component 33, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 33, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.34 Service component 34. Supplier shall provide the hosted route planning module identified as component 34, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and

the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 34, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.35 Service component 35. Supplier shall provide the hosted route planning module identified as component 35, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 35, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.36 Service component 36. Supplier shall provide the hosted route planning module identified as component 36, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 36, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.37 Service component 37. Supplier shall provide the hosted route planning module identified as component 37, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 37, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.38 Service component 38. Supplier shall provide the hosted route planning module identified as component 38, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 38, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.39 Service component 39. Supplier shall provide the hosted route planning module identified as component 39, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 39, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.40 Service component 40. Supplier shall provide the hosted route planning module identified as component 40, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 40, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.41 Service component 41. Supplier shall provide the hosted route planning module

identified as component 41, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 41, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.42 Service component 42. Supplier shall provide the hosted route planning module identified as component 42, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 42, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.43 Service component 43. Supplier shall provide the hosted route planning module identified as component 43, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 43, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.44 Service component 44. Supplier shall provide the hosted route planning module identified as component 44, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 44, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.45 Service component 45. Supplier shall provide the hosted route planning module identified as component 45, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 45, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.46 Service component 46. Supplier shall provide the hosted route planning module identified as component 46, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 46, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.47 Service component 47. Supplier shall provide the hosted route planning module identified as component 47, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 47, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.48 Service component 48. Supplier shall provide the hosted route planning module identified as component 48, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 48, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.49 Service component 49. Supplier shall provide the hosted route planning module identified as component 49, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 49, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.50 Service component 50. Supplier shall provide the hosted route planning module identified as component 50, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 50, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.51 Service component 51. Supplier shall provide the hosted route planning module identified as component 51, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 51, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.52 Service component 52. Supplier shall provide the hosted route planning module identified as component 52, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 52, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.53 Service component 53. Supplier shall provide the hosted route planning module identified as component 53, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 53, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.54 Service component 54. Supplier shall provide the hosted route planning module identified as component 54, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 54, and shall name an operational contact

for it within the onboarding period agreed in the project plan.

A.55 Service component 55. Supplier shall provide the hosted route planning module identified as component 55, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 55, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.56 Service component 56. Supplier shall provide the hosted route planning module identified as component 56, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 56, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.57 Service component 57. Supplier shall provide the hosted route planning module identified as component 57, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 57, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.58 Service component 58. Supplier shall provide the hosted route planning module identified as component 58, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 58, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.59 Service component 59. Supplier shall provide the hosted route planning module identified as component 59, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 59, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.60 Service component 60. Supplier shall provide the hosted route planning module identified as component 60, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 60, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.61 Service component 61. Supplier shall provide the hosted route planning module identified as component 61, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and

the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 61, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.62 Service component 62. Supplier shall provide the hosted route planning module identified as component 62, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 62, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.63 Service component 63. Supplier shall provide the hosted route planning module identified as component 63, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 63, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.64 Service component 64. Supplier shall provide the hosted route planning module identified as component 64, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 64, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.65 Service component 65. Supplier shall provide the hosted route planning module identified as component 65, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 65, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.66 Service component 66. Supplier shall provide the hosted route planning module identified as component 66, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 66, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.67 Service component 67. Supplier shall provide the hosted route planning module identified as component 67, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 67, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.68 Service component 68. Supplier shall provide the hosted route planning module

identified as component 68, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 68, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.69 Service component 69. Supplier shall provide the hosted route planning module identified as component 69, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 69, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.70 Service component 70. Supplier shall provide the hosted route planning module identified as component 70, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 70, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.71 Service component 71. Supplier shall provide the hosted route planning module identified as component 71, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 71, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.72 Service component 72. Supplier shall provide the hosted route planning module identified as component 72, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 72, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.73 Service component 73. Supplier shall provide the hosted route planning module identified as component 73, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 73, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.74 Service component 74. Supplier shall provide the hosted route planning module identified as component 74, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 74, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.75 Service component 75. Supplier shall provide the hosted route planning module identified as component 75, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 75, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.76 Service component 76. Supplier shall provide the hosted route planning module identified as component 76, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 76, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.77 Service component 77. Supplier shall provide the hosted route planning module identified as component 77, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 77, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.78 Service component 78. Supplier shall provide the hosted route planning module identified as component 78, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 78, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.79 Service component 79. Supplier shall provide the hosted route planning module identified as component 79, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 79, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.80 Service component 80. Supplier shall provide the hosted route planning module identified as component 80, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 80, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.81 Service component 81. Supplier shall provide the hosted route planning module identified as component 81, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 81, and shall name an operational contact

for it within the onboarding period agreed in the project plan.

A.82 Service component 82. Supplier shall provide the hosted route planning module identified as component 82, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 82, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.83 Service component 83. Supplier shall provide the hosted route planning module identified as component 83, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 83, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.84 Service component 84. Supplier shall provide the hosted route planning module identified as component 84, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 84, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.85 Service component 85. Supplier shall provide the hosted route planning module identified as component 85, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 85, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.86 Service component 86. Supplier shall provide the hosted route planning module identified as component 86, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 86, and shall name an operational contact for it within the onboarding period agreed in the project plan.

A.87 Service component 87. Supplier shall provide the hosted route planning module identified as component 87, including configuration, routine maintenance, capacity monitoring and incident handling, in accordance with the service levels in Schedule B and the security requirements in Schedule C. Customer shall give Supplier the information and access reasonably needed to provide component 87, and shall name an operational contact for it within the onboarding period agreed in the project plan.

## Schedule B: Service levels

B.1 Availability. The Services shall be available at least 99.5% of the time in each calendar month, measured over the whole month and excluding planned maintenance of which Supplier has given at least five (5) Business Days' notice.

B.2 Service Credits. If availability in a calendar month is below 99.5% and at or above 99.0%, the Service Credit is 5% of the Fees for that month. If it is below 99.0%, the Service Credit is 10% of the Fees for that month.

B.3 Incident response. Supplier shall respond to a priority one incident within one hour and to a priority two incident within four hours, in each case measured during the support hours stated in the project plan.

## Schedule C: Security

C.01 Control 01. Supplier shall maintain an administrative, technical and physical safeguard for control area 01 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 01 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.02 Control 02. Supplier shall maintain an administrative, technical and physical safeguard for control area 02 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 02 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.03 Control 03. Supplier shall maintain an administrative, technical and physical safeguard for control area 03 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 03 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.04 Control 04. Supplier shall maintain an administrative, technical and physical safeguard for control area 04 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 04 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.05 Control 05. Supplier shall maintain an administrative, technical and physical safeguard for control area 05 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 05 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.06 Control 06. Supplier shall maintain an administrative, technical and physical safeguard for control area 06 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 06 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.07 Control 07. Supplier shall maintain an administrative, technical and physical safeguard for control area 07 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 07 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.08 Control 08. Supplier shall maintain an administrative, technical and physical safeguard for control area 08 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 08 available to Customer on

reasonable written request, subject to the confidentiality obligations in this Agreement.

C.09 Control 09. Supplier shall maintain an administrative, technical and physical safeguard for control area 09 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 09 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.10 Control 10. Supplier shall maintain an administrative, technical and physical safeguard for control area 10 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 10 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.11 Control 11. Supplier shall maintain an administrative, technical and physical safeguard for control area 11 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 11 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.12 Control 12. Supplier shall maintain an administrative, technical and physical safeguard for control area 12 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 12 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.13 Control 13. Supplier shall maintain an administrative, technical and physical safeguard for control area 13 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 13 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.14 Control 14. Supplier shall maintain an administrative, technical and physical safeguard for control area 14 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 14 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.15 Control 15. Supplier shall maintain an administrative, technical and physical safeguard for control area 15 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 15 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.16 Control 16. Supplier shall maintain an administrative, technical and physical safeguard for control area 16 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 16 available to Customer on

reasonable written request, subject to the confidentiality obligations in this Agreement.

C.17 Control 17. Supplier shall maintain an administrative, technical and physical safeguard for control area 17 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 17 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.18 Control 18. Supplier shall maintain an administrative, technical and physical safeguard for control area 18 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 18 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.19 Control 19. Supplier shall maintain an administrative, technical and physical safeguard for control area 19 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 19 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.20 Control 20. Supplier shall maintain an administrative, technical and physical safeguard for control area 20 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 20 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.21 Control 21. Supplier shall maintain an administrative, technical and physical safeguard for control area 21 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 21 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.22 Control 22. Supplier shall maintain an administrative, technical and physical safeguard for control area 22 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 22 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.23 Control 23. Supplier shall maintain an administrative, technical and physical safeguard for control area 23 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 23 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.24 Control 24. Supplier shall maintain an administrative, technical and physical safeguard for control area 24 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 24 available to Customer on

reasonable written request, subject to the confidentiality obligations in this Agreement.

C.25 Control 25. Supplier shall maintain an administrative, technical and physical safeguard for control area 25 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 25 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.26 Control 26. Supplier shall maintain an administrative, technical and physical safeguard for control area 26 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 26 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.27 Control 27. Supplier shall maintain an administrative, technical and physical safeguard for control area 27 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 27 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.28 Control 28. Supplier shall maintain an administrative, technical and physical safeguard for control area 28 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 28 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.29 Control 29. Supplier shall maintain an administrative, technical and physical safeguard for control area 29 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 29 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.30 Control 30. Supplier shall maintain an administrative, technical and physical safeguard for control area 30 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 30 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.31 Control 31. Supplier shall maintain an administrative, technical and physical safeguard for control area 31 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 31 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.32 Control 32. Supplier shall maintain an administrative, technical and physical safeguard for control area 32 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 32 available to Customer on

reasonable written request, subject to the confidentiality obligations in this Agreement.

C.33 Control 33. Supplier shall maintain an administrative, technical and physical safeguard for control area 33 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 33 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.34 Control 34. Supplier shall maintain an administrative, technical and physical safeguard for control area 34 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 34 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.35 Control 35. Supplier shall maintain an administrative, technical and physical safeguard for control area 35 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 35 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.36 Control 36. Supplier shall maintain an administrative, technical and physical safeguard for control area 36 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 36 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.37 Control 37. Supplier shall maintain an administrative, technical and physical safeguard for control area 37 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 37 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.38 Control 38. Supplier shall maintain an administrative, technical and physical safeguard for control area 38 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 38 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.39 Control 39. Supplier shall maintain an administrative, technical and physical safeguard for control area 39 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 39 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.40 Control 40. Supplier shall maintain an administrative, technical and physical safeguard for control area 40 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 40 available to Customer on

reasonable written request, subject to the confidentiality obligations in this Agreement.

C.41 Control 41. Supplier shall maintain an administrative, technical and physical safeguard for control area 41 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 41 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.42 Control 42. Supplier shall maintain an administrative, technical and physical safeguard for control area 42 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 42 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.43 Control 43. Supplier shall maintain an administrative, technical and physical safeguard for control area 43 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 43 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.44 Control 44. Supplier shall maintain an administrative, technical and physical safeguard for control area 44 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 44 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.45 Control 45. Supplier shall maintain an administrative, technical and physical safeguard for control area 45 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 45 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.46 Control 46. Supplier shall maintain an administrative, technical and physical safeguard for control area 46 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 46 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.47 Control 47. Supplier shall maintain an administrative, technical and physical safeguard for control area 47 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 47 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.48 Control 48. Supplier shall maintain an administrative, technical and physical safeguard for control area 48 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 48 available to Customer on

reasonable written request, subject to the confidentiality obligations in this Agreement.

C.49 Control 49. Supplier shall maintain an administrative, technical and physical safeguard for control area 49 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 49 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.50 Control 50. Supplier shall maintain an administrative, technical and physical safeguard for control area 50 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 50 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.51 Control 51. Supplier shall maintain an administrative, technical and physical safeguard for control area 51 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 51 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.52 Control 52. Supplier shall maintain an administrative, technical and physical safeguard for control area 52 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 52 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.53 Control 53. Supplier shall maintain an administrative, technical and physical safeguard for control area 53 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 53 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.54 Control 54. Supplier shall maintain an administrative, technical and physical safeguard for control area 54 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 54 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.55 Control 55. Supplier shall maintain an administrative, technical and physical safeguard for control area 55 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 55 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.56 Control 56. Supplier shall maintain an administrative, technical and physical safeguard for control area 56 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 56 available to Customer on

reasonable written request, subject to the confidentiality obligations in this Agreement.

C.57 Control 57. Supplier shall maintain an administrative, technical and physical safeguard for control area 57 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 57 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.58 Control 58. Supplier shall maintain an administrative, technical and physical safeguard for control area 58 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 58 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.59 Control 59. Supplier shall maintain an administrative, technical and physical safeguard for control area 59 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 59 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.60 Control 60. Supplier shall maintain an administrative, technical and physical safeguard for control area 60 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 60 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.61 Control 61. Supplier shall maintain an administrative, technical and physical safeguard for control area 61 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 61 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.62 Control 62. Supplier shall maintain an administrative, technical and physical safeguard for control area 62 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 62 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.63 Control 63. Supplier shall maintain an administrative, technical and physical safeguard for control area 63 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 63 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.64 Control 64. Supplier shall maintain an administrative, technical and physical safeguard for control area 64 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 64 available to Customer on

reasonable written request, subject to the confidentiality obligations in this Agreement.

C.65 Control 65. Supplier shall maintain an administrative, technical and physical safeguard for control area 65 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 65 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.66 Control 66. Supplier shall maintain an administrative, technical and physical safeguard for control area 66 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 66 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.67 Control 67. Supplier shall maintain an administrative, technical and physical safeguard for control area 67 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 67 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.68 Control 68. Supplier shall maintain an administrative, technical and physical safeguard for control area 68 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 68 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.69 Control 69. Supplier shall maintain an administrative, technical and physical safeguard for control area 69 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 69 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.70 Control 70. Supplier shall maintain an administrative, technical and physical safeguard for control area 70 that is appropriate to the nature of the Customer Data, shall review the safeguard whenever the Services change materially, and shall record the outcome of each review. Supplier shall make the record for control area 70 available to Customer on reasonable written request, subject to the confidentiality obligations in this Agreement.

C.71 Control 71.
